

Join us for our

Leadership Communication Workshop

What is it?

Tool 4 Talking™ is a one-day, hands-on communication workshop for construction leaders. This workshop is specifically designed for those running a crew or managing multiple teams, this workshop gives you practical tools to become a more confident communicator, build stronger team dynamics, and create a positive, productive workplace.

Workshop Goal: To Bridge The Gap Between Tools & Teamwork

This isn't a sit-back-and-listen kind of day. It's interactive, straight-talking, and packed with useful strategies you can use immediately - on site, in the office, or even at home. You'll walk away with new skills and a better understanding of how you communicate and how to lead through communication.

Covered On The Day:

- How to identify different communication styles, so you can direct the conversation to an outcome that works for you
- How to quickly read body language to understand the full depth of your conversations
- Learn what motivates individuals, and how to encourage their best efforts
- Understanding generational differences to communicate more effectively across diverse age groups
- How to approach the underperformers on your team
- How to approach tough conversations with staff, clients and even your Whānau

Important Details:

- **Trainer:** Derek Toner
- **Cost:** \$750 plus GST Per Person
- **What's Included:** Catering & take-home workbook packed with tools you will use again and again
- **Group Bookings:** Yes - we do those too!
